HOW TO OBTAIN WARRANTY CLAIM ASSISTANCE

Any claim for warranty assistance must be made promptly. First, determine if your Eclipse commercial water heater is "in-warranty" (that is, within the Applicable Warranty Periods). You can determine your Eclipse unit's warranty status by adding its Applicable Warranty Period to its date of original installation. However, if you do not have documentary proof of your Eclipse commercial water heater's date of original installation, your Eclipse unit's warranty status will be based on its date of manufacture. The first four numeric digits of your Eclipse commercial water heater's serial number represent the month and year it was manufactured. Add the Applicable Warranty Period plus ninety (90) days to the date of manufacture to determine if your Eclipse commercial water heater is still covered by this Limited Warranty. You can also determine your Eclipse unit's warranty status by obtaining its complete model number, complete serial number, and original installation date and then accessing the "**Warranty Verification**" information on **Rheem Water Heaters' Internet website (www.rheem.com)** or contacting **Rheem Water Heaters' Claims Department (telephone number (800) 621-5622)**.

If your Eclipse commercial water heater is "in-warranty", contact the plumber, or mechanical contractor, that installed it for assistance with the warranty repairs, or replacement, required. You may also select a plumber, or mechanical contractor, from your local Yellow Pages to assist you. **Rheem Water Heaters' Commercial Technical Service Group** personnel are available to assist you – by **telephone at (800) 432-8373** or via their **Internet address (commtech@rheem.com)** - in obtaining "in-warranty" service or answering your questions about the operation or repair of your Eclipse commercial water heater during normal business hours. Be prepared to provide the plumber, or mechanical contractor, or Rheem Commercial Technical Service person you call with the complete model number, the complete serial number, and the date of installation of your Eclipse commercial water heater in addition to an explanation of your Eclipse commercial water heater's problem.

If an exact replacement is not available, Rheem will provide you with the current model of your Eclipse commercial water heater, or component part(s), or a replacement unit with comparable operating features. If government regulations or industry certification or similar standards require the replacement commercial water heater, or replacement component part(s), to have features not found in your defective Eclipse commercial water heater, or the defective component part(s), you will be charged for the difference in price represented by those required features. If you pay the price difference for those required features and/or to upgrade the size and/or other features available on a replacement new commercial water heater, you will also receive a complete new Limited Warranty (with the full Applicable Warranty Periods) for the replacement new commercial water heater.

DO NOT DESTROY, OR DISPOSE OF, ANY RHEEM-RUUD "IN-WARRANTY" DEFECTIVE COMMERCIAL WATER HEATER, OR "IN-WARRANTY" DEFECTIVE COMPONENT PART(S), WITHOUT AUTHORIZATION FROM THE RHEEM COMMERCIAL TECHNICAL SERVICE GROUP. Rheem reserves the right to inspect, or require the return of, your defective Eclipse commercial water heater or the defective component part(s). Each "in-warranty" defective Eclipse commercial water heater must be made available to Rheem (with the original rating label and all the component parts intact) in exchange for the replacement commercial water heater. Each defective "in-warranty" component part to be replaced must be returned to Rheem in exchange for the replacement component part.

Warranty compensation is subject to validation of "in-warranty" coverage by Rheem Claims Department personnel:

- To obtain warranty compensation for an "in-warranty" defective Eclipse commercial water heater, you must provide Rheem with: (at Rheem's option) either the defective Eclipse commercial water heater (with the rating label and all the component parts intact) or the complete original rating label (**photocopies are not acceptable**) removed from the defective Eclipse commercial water heater; the complete model number and the complete serial number of the Rheem-Ruud commercial water heater that replaced the defective Eclipse unit; and, the date the original Eclipse commercial water heater failed. You may also be required to provide documentary proof of the defective Eclipse commercial water heater's date of original installation to establish its "in-warranty" status.
- To receive warranty compensation for an "in-warranty" defective component part, you must provide Rheem with: the defective component part; the complete model number and the complete serial number of the Rheem-Ruud Eclipse commercial water heater from which the defective component part was removed; and, the date the defective component part failed. You may also be required to provide documentary proof of the date of original installation of the Rheem-Ruud Eclipse commercial water heater from which the defective component part was removed – or the date of purchase of the component part (if it was purchased separately) – to establish the "in-warranty" status of the defective component part.

Warranty claim documentation should be mailed promptly to **Rheem Water Heaters, Claims Department, 2600 Gunter Park Drive East, Montgomery, Alabama 36109.** (CONTINUED ON REVERSE)
